

Environmental Sustainability Policy

Weir Waste Services Ltd is committed to minimise the impacts of its activities on the environment. We aim to follow and to promote good sustainability practise and to help others to do the same. Our objective is to provide a service that proactively protects and conserves the natural environment.

This policy supports our Environment Policy and describes our commitment to environmental sustainability.

We endeavor to:

- Comply with all applicable legislation, regulations, codes of practice and guidelines
- Incorporate environmental factors into business decisions
- Continually assess, monitor, review and improve our environmental performance
- Encourage and develop our employees, interested parties, external providers, customers, contractors, and visitors to conduct their activities in an environmentally sustainable manner
- Minimize the impact on sustainability of all our activities
- Maximize the efficient use of resources including energy and water use.

Sustainability is very much aligned with our company brand values. We're firmly embedding our actions into the way we do business, and continually monitoring, reviewing and improving.

The Directors and management team are responsible and committed to drive, innovate and deliver sustainable practices across our business.
